

PRIVATE GUIDED FOUR WHEEL DRIVE DAY TOURS

THE GOLDEN CIRCLE - FROM SOUTH ICELAND

- Pick up at your hotel.
- Driving distance ca. 300 km.
- Duration ca. 8 - 9 hours.

The Golden Circle is one of Iceland's most popular day tours. You can observe the beauty of Iceland's nature and learn about the country's history, dating back to the settlement era. We begin the day by driving to the water fall Urridafoss and from there to Skalholt where the first bishop,

Isleifur Gissurason, was ordained in 1056. Skalholt was the bishopric of South Iceland and a cultural and educational centre for 700 years. From Skalholt we drive to one of the world's most active geothermal fields, the Geothermal field at Haukadalur, where plenty of boiling springs and hot mud pots are to be found. The Great Geyser is what this geological phenomenon is named by. Strokkur, another famous geyser nearby, erupts every few minutes, shooting a tower of water and steam 30 meters into the air. Following, we will visit the Golden Falls, one of the most impressive cascades in Europe. There we can view the history of Sigríður Tomasdóttir from Brattholt. It is suspected that Sigríður managed to prevent the harnessing of the waterfall, which had been planned for electricity generating purposes. From the Golden Falls we drive to Thingvellir, where we will review the nation's history. At Thingvellir, Althingi - the national parliament - was founded around 930, and continued to convene there until 1798. Many major historical events in the Icelandic history have taken place at Thingvellir. Today, Thingvellir is a national park, which is meant to remain in public ownership and be protected by Althingi forever. At last we drive to Hellisheidi Power Plant. There we will receive information about the country's unique geology and how Icelanders harness geothermal energy in an environmentally friendly way. From Hellisheidi Power Plant we return to your hotel over Hellisheidi.
